

Global Marine Systems Training, (Safe Use Of Lifting Equipment and Rigging) December 2004

Dear Mr. O'Connor,

Just a quick note to say thank you to you and your staff, for all the effort that was made during the recent training program carried out by Inspection Consultants International – Philippines.

We at Global Marine Systems pride ourselves on having an excellent safety record, and this has only been enhanced by your recent training of my staff in the areas of lifting equipment and rigging.

As you know we can move several millions of dollars of equipment in any one day. Thus this training is something that I can confidently take forward to put my customers mind at ease and prove to them, that their plant and equipment is in SAFE capable hands.

Yours sincerely
